DETAILED ACTION

Allowable Subject Matter

Claims 22 - 40 are allowed.

The following is a statement of reasons for the indication of allowable subject matter: Zhu et al. (Fig. 1) shows a prior art ferroelectric capacitor comprising first and second conducting surfaces (18, 20), ferroelectric material (34) proximate the first and second conducting surfaces, a variable voltage line (26) coupled to the ferroelectric material but does not teach or suggest where Q when operated in a temperature range of –50° C and 100° C is greater than about 80 in a frequency range between 0.25GHz and 7.0GHz (claim 1), nor would it have been obvious to combine the prior art teach to meet the limitations of the claim above, thus the claims are in condition for allowance.

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Dean O. Takaoka whose telephone number is (571) 272-1772. The examiner can normally be reached on 8:30a - 5:00p Mon - Fri.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Robert Pascal can be reached on (571) 272-1769. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
